SKILLS

JavaScript   React.js   Node.js   React-Redux

MongoDB   Express.js   Docker   JSON   XML

Git   Socket.io   Bulma   Selenium   HTML

CSS   BitBucket   Agile   Microservices

PERSONAL PROJECTS

Tamilakam - tamilakam.in (06/2018 – Present)
- A search for ancient Tamil.
- React powered site configured with SASS, deployed in EC2 and automated the deployment process using PM2.
- Mapped with custom domain and added SSL certificate.
- Inspired from Medium, user can add, comment on the post, delete, favourite them and follow other authors. Designed using BULMA CSS framework.

Unibeam (01/2014 – 04/2014)
- UNIBEAM is a unique addition to the fleet of flashlight apps in the Windows phone store. Its theme centred design features your favourite superheroes with animations & sound effects that kick in as you toggle the light. It comes with a handful of features and exerts a decent performance.
- Crossed 1 Lakh downloads with 4.4 rating in Windows Phone store.

ACHIEVEMENTS

Employee of the month - Agile Star (03/2015 – 03/2015)
